Get tails wagging with a Doggy Easter Egg Hunt – Enrichment Fun at Home!

While we prioritize enrichment activities during daycare, it's equally important to integrate enrichment into your dog's home environment. This ensures your furry friend can thrive and be their absolute best, both mentally and physically.

Providing enrichment is vital for the overall well-being of our canine companions. It encourages them to indulge in their innate behaviors, such as sniffing, playing, digging, running, exploring, and socializing. Enrichment enables dogs to fully embrace their natural instincts and lead fulfilling lives. Get your pup in on the Easter fun by organizing a personalized egg hunt just for them!

Scatter their beloved treats or toys discreetly throughout your home or fenced yard for an exciting adventure. Once you've stashed away toys and treats, cheer on your furry friend as they embark on their search! Celebrate each discovery with praise. For an extra twist of tail-wagging fun, employ plastic Easter eggs to hold their treasures. Just remember to keep tabs on all the hiding spots! After your pup uncovers an egg, you can either open it to reveal the tasty treats inside or offer a reward for detecting the enticing scent within. Make sure to keep close tabs so that your furry pal does not eat the plastic egg!
